Question

When, in 2017, Cambridge University students Lucy Moss and Toby Marlow decided they wanted to develop a musical together, one of their goals was for their female actor friends to have good parts to play. _____ they created the show *Six*, a retelling of the history of King Henry VIII’s wives in which each of the six queens has a starring role.

Which choice completes the text with the most logical transition?

Answer

- A. In other words,
- B. In summary,
- C. For example,
- D. To that end,

Correct Answer: D

Rationale

Choice D is the best answer. "To that end" logically signals that the information in this sentence—the students’ creation of a show with six starring female roles—is the product of a goal or desire in the previous sentence (the students’ wish to develop a musical with roles for female actors).

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about the students’ wish to develop a musical with roles for female actors. Instead, the students’ show is the product of that desire. Choice B is incorrect because "in summary" illogically signals that the information in this sentence summarizes the previous information about the students’ wish to develop a musical with roles for female actors. Instead, the students’ show is the product of that desire. Choice C is incorrect because "for example" illogically signals that the information in this sentence is merely an example of the previous information about the students’ wish to develop a musical with roles for female actors. Instead, the students’ show is the direct product of that desire.
