Question

To perform a quad axel, a figure skater must leap into the air and complete four and a half rotations before landing, an extreme feat. _____ in 2022, when 17-year-old Ilia Malinin landed the first quad axel—considered the most difficult quad jump—in a high-level competition, the audience was left awestruck.

Which choice completes the text with the most logical transition?

Answer

- A. Moreover,
- B. Fittingly,
- C. Next,
- D. However,

Correct Answer: B

Rationale

Choice B is the best answer. "Fittingly" logically signals that the information in this sentence—that the audience was amazed when Malinin landed the first quad axel—describes a suitable or appropriate reaction to the completion of this extremely difficult jump.

Choice A is incorrect. "Moreover" illogically signals that the information in this sentence merely adds to the previous information about the difficulty of completing a quad axel. Instead, the audience’s amazement is a suitable or appropriate reaction to this accomplishment. Choice C is incorrect. "Next" illogically signals that the information in this sentence is simply the next step in a process. Instead, the audience’s amazement is a suitable or appropriate reaction to the accomplishment. Choice D is incorrect. "However" illogically signals that the information in this sentence is in contrast or an exception to the difficulty of completing a quad axel. Instead, the audience’s amazement is a suitable or appropriate reaction to this accomplishment.
