Question

When using sumac for dyeing cloth, textile artists first soak it in water to release its color. Then, they add the cloth to the dyebath and simmer it for hours, perhaps even days. _____ they will remove the cloth, at which point it will have turned a vibrant red color.

Which choice completes the text with the most logical transition?

Answer

- A. Nevertheless,
- B. Likewise,
- C. Eventually,
- D. In other words,

Correct Answer: C

Rationale

Choice C is the best answer. "Eventually" logically signals that the information in this sentence—that textile artists will remove the cloth when it has turned red—is the final step in the chronological sequence of the dyeing process described in the previous sentences.

Choice A is incorrect because "nevertheless" illogically signals that the information in this sentence is true despite the previous information about simmering the cloth in the dyebath. Instead, the removal of the cloth is the final step in the dyeing process. Choice B is incorrect because "likewise" illogically signals that the information in this sentence is similar to the previous information about simmering the cloth in the dyebath. Instead, the removal of the cloth is the final step in the dyeing process. Choice D is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about simmering the cloth in the dyebath. Instead, the removal of the cloth is the final step in the dyeing process.
