Question

Researchers Amit Kumar and Nicholas Epley investigated how _____. In a series of experiments conducted in 2022, they found that people performing small acts of kindness underestimated the positive effect their actions had on others.

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. do people perceive acts of kindness.
- B. do people perceive acts of kindness?
- C. people perceive acts of kindness?
- D. people perceive acts of kindness.

Correct Answer: D

Rationale

Choice D is the best answer. The convention being tested is end-of-sentence punctuation. This choice correctly uses a period to punctuate a declarative sentence that asks an indirect question ("Researchers Amit Kumar and Nicholas Epley investigated how people perceive acts of kindness").

Choice A is incorrect. The structure of the sentence requires a declarative clause at the end of the sentence that states what Kumar and Epley did, not an interrogative clause that asks a direct question, such as "how do people perceive acts of kindness." Choice B is incorrect. The structure of the sentence requires a declarative clause at the end of the sentence that states what Kumar and Epley did, not an interrogative clause that asks a direct question, such as "how do people perceive acts of kindness?" Choice C is incorrect. It's unconventional to use a question mark in this way to punctuate a declarative sentence that asks an indirect question, such as "Researchers...kindness."
