Question

In 2021, Mexican biologist Martha Lydia Macías-Rubalcava led a review of the scientific literature related to endophytic fungi (i.e., fungi that live inside a host _____ researching 120 endophytic fungi–produced compounds, she found that their phytotoxicity can make them viable alternatives to chemical herbicides for controlling weeds.

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. plant). By
- B. plant), by
- C. plant) and by
- D. plant) by

Correct Answer: A

Rationale

Choice A is the best answer. The convention being tested is punctuation use between sentences. In this choice, the period is used correctly to mark the boundary between one sentence ("In...plant") and another ("By...weeds"). The prepositional phrase beginning with "by" modifies the subject of the next sentence, "she," which refers to Macías-Rubalcava.

Choice B is incorrect because it results in a comma splice. A comma can't be used in this way to join two sentences. Choice C is incorrect. Without a comma preceding it, the conjunction "and" can't be used in this way to join two sentences. Choice D is incorrect because it results in a run-on sentence. The two sentences are fused without punctuation and/or a conjunction.
