Question

In rural Minnesota, ecologist Leroy Walston conducted a study to determine whether seeding solar panel fields with wildflowers could bolster pollinator populations in nearby food crops. Walston’s findings indicate that—assuming solar panel installers’ _____ practice has the potential to increase the number of native bees in crops near solar fields throughout the Midwest by up to 20 percent.

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. cooperation, this
- B. cooperation—this
- C. cooperation: this
- D. cooperation this

Correct Answer: B

Rationale

Choice B is the best answer. The convention being tested is the use of punctuation within a sentence. This choice correctly uses a dash after “cooperation” to pair with the dash after “that” to separate the supplementary element “assuming solar panel installers’ cooperation” from the rest of the sentence.

Choice A is incorrect because a comma can’t be paired with a dash in this way to separate the supplementary element from the rest of the sentence. Choice C is incorrect because a colon can’t be paired with a dash in this way to separate the supplementary element from the rest of the sentence. Choice D is incorrect because it fails to use appropriate punctuation to separate the supplemental element from the rest of the sentence.
