Question

While researching a topic, a student has taken the following notes:

- The meter of a poem is the rhythmic structure or pattern of accents in its lines.
- Alliterative meter is structured by a pattern of repeated sounds.
- Quantitative meter is structured by a pattern of long and short syllables.
- The Old English poem *Widsith* uses an alliterative meter.
- The Sanskrit poem *Meghadūta* uses a quantitative meter.

The student wants to emphasize a difference between the meters of the two poems. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Answer

- A. The poem *Widsith* is written in Old English, but *Meghadūta* is written in Sanskrit.
- B. Alliterative meter is a pattern of repeated sounds, but quantitative meter is a rhythmic structure or pattern of accents.
- C. The Sanskrit poem *Meghadūta* uses a quantitative meter, while the meter of the Old English poem *Widsith* uses a pattern of long and short syllables.
- D. The lines of the poem *Meghadūta* use a pattern of long and short syllables, whereas *Widsith*’s lines use a pattern of repeated sounds.

Correct Answer: D

Rationale

Choice D is the best answer. Noting that *Meghadūta* uses a pattern of long and short syllables in its lines (quantitative meter) and *Widsith* uses a pattern of repeated sounds in its lines (alliterative meter), and signaling a contrast with “whereas,” the sentence emphasizes a difference between the meters of the two poems.

Choice A is incorrect. The sentence indicates that the two poems were written in different languages; it doesn’t emphasize a difference between the meters of the two poems. Choice B is incorrect. The sentence mentions the meters of the two poems but misrepresents information from the notes; the overall definition of a meter (the rhythmic structure or pattern of accents in a poem’s lines) applies to both alliterative and quantitative meters, not just quantitative. Choice C is incorrect. While the sentence emphasizes a difference between the meters of the two poems, it misrepresents information from the notes; *Widsith* uses an alliterative meter, which is structured by a pattern of repeated sounds, not a pattern of long and short syllables.
