Question

The traditional process of Turkish paper marbling (ebru) generally proceeds like this: First, the artisan fills a shallow tray with a water bath solution. Next, the artisan adds inks or paints to the solution, which can then be manipulated into intricate designs. _____ the artisan slips paper in and out of the liquid, transferring the design onto the paper.

Which choice completes the text with the most logical transition?

Answer

- A. Actually,
- B. Therefore,
- C. Nevertheless,
- D. Finally,

Correct Answer: D

Rationale

Choice D is the best answer. “Finally” logically signals that the information in this sentence—that the artisan slips paper in and out of the liquid to transfer the design onto paper—is the final step in the process of Turkish paper marbling, which began with what happens “first” (filling a tray with a solution) and continued with what happens “next” (adding inks or paints to the solution).

Choice A is incorrect because “actually” illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper is unexpected in light of the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling. Choice B is incorrect because “therefore” illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper is a consequence of the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling. Choice C is incorrect because “nevertheless” illogically signals that the information in this sentence about slipping paper in and out of liquid to transfer a design onto paper contrasts with the previously described steps. Instead, the sentence describes the final step in the process of Turkish paper marbling.
