Question

Customers who are satisfied with how a company resolves a service issue may regard that company more positively than they would if no such issue had occurred. This idea is known as the service recovery _____ research suggests that it has important implications for customer loyalty and retention.

Which choice completes the text so that it conforms to the conventions of Standard English?

Answer

- A. paradox,
- B. paradox
- C. paradox, and
- D. paradox and,

Correct Answer: C

Rationale

Choice C is the best answer. The convention being tested is the coordination of main clauses within a sentence. This choice correctly uses a comma and the coordinating conjunction "and" to join the first main clause ("This idea...paradox") and the second main clause ("research...retention").

Choice A is incorrect because it results in a comma splice. Without a conjunction following it, a comma can't be used in this way to join two main clauses. Choice B is incorrect because it results in a run-on sentence. The two main clauses are fused without punctuation and/or a conjunction. Choice D is incorrect because when coordinating two longer main clauses such as these, it's conventional to use a comma before the coordinating conjunction, not after it.
